GOAL SETTING

- Create a goal for a student who is struggling in your class (academically and/or behaviorally)

- Make sure the goal has:
  - Specific criterion
  - Behavior
  - Point at which goal is met
  - Timeline for completion

EXAMPLE: When given an assignment for class, Louisa will complete and turn in homework on time 85% of the time over 3 consecutive weeks.

GOAL: __________________________________________________________

___________________________________________________________________________

___________________________________________________________________________

___________________________________________________________________________

___________________________________________________________________________

Based on Chapter 6 (see p. 135):
