

**Managing Acting-Out Behavior**

David James Royer, PhD, BCBA  
University of Louisville

July 24, 2023  
Greater Louisville Educational Cooperative Diverse Learners Institute  
University of Louisville ShelbyHurst Campus

Ci3T Comprehensive, Integrated, Three-Tiered Model of Prevention **BCBA CEUHelper Available**

1

---

---

---

---

---

---

---

---

**Agenda**

- Ci3T model of prevention
  - A respectful approach to preventing and responding to challenging behavior
- A look at acting-out behavior: Timing is everything!
- Managing acting-out behavior: Seven phases
- Pathways to success: Defusing various behaviors
- Tier 3: Building an individualized de-escalation support plan
- Resources

[ci3t.org/presentations](https://ci3t.org/presentations)

### Antecedents - Behavior - Consequences

Can you help me, Mrs. Martin? This wasn't covered in any of my education courses.

**Function!**

Pre-correction: Identifies predictable situations and provides students with supports, prompts, and reinforcement for engaging in appropriate behavior.

16

---

---

---

---

---

---

---

---

### Managing Acting-Out Behaviors

- Classrooms are becoming increasingly more diverse
  - Culturally
  - Academically
  - Behaviorally
  - Social skill sets

(Lane, Wehby, & Robertson, 2008)
- Students with exceptionalities are accommodated in inclusive settings  
(MacMillian, Gresham, & Forness, 1996)

ED 0.5%  
EBD 20%

17

---

---

---

---

---

---

---

---

### The Acting-Out Cycle

Whether the problem behavior is managed safely or not or is defused in a large measure depends on **YOUR INITIAL RESPONSE**  
-Dr. Geoff Colvin

Colvin, 2004

[Overview of the Acting-Out Cycle--Vanderbilt IRIS Module](#)

18

---

---

---

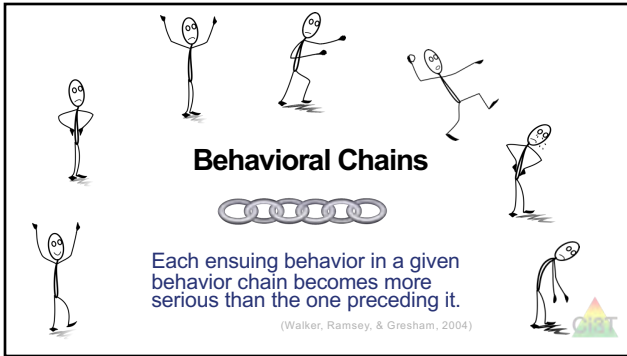

---

---

---

---

---

**Behavioral Chains**

Each ensuing behavior in a given behavior chain becomes more serious than the one preceding it.

(Walker, Ramsey, & Gresham, 2004)

The diagram shows a sequence of six stick figures illustrating a behavioral chain. The first figure stands with hands at its sides. The second has its arms raised. The third is walking. The fourth is running. The fifth is running faster. The sixth is running very fast and looking back over its shoulder. In the center, there are five interlocking metal links. A small logo is in the bottom right corner.

19

---

---

---

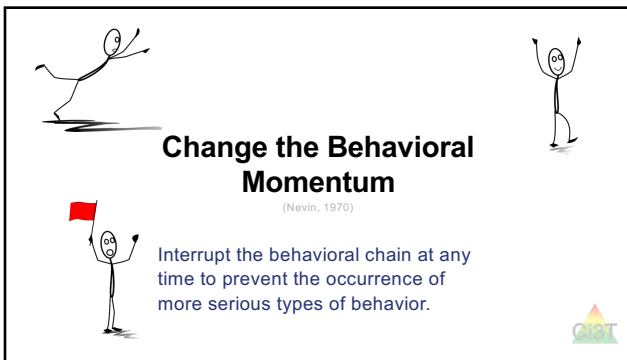

---

---

---

---

---

**Change the Behavioral Momentum**

(Nevin, 1970)

Interrupt the behavioral chain at any time to prevent the occurrence of more serious types of behavior.

The diagram shows a stick figure running to the right. A second stick figure stands to the right, holding a red flag. A third stick figure stands to the left, also holding a red flag. A small logo is in the bottom right corner.

20

---

---

---

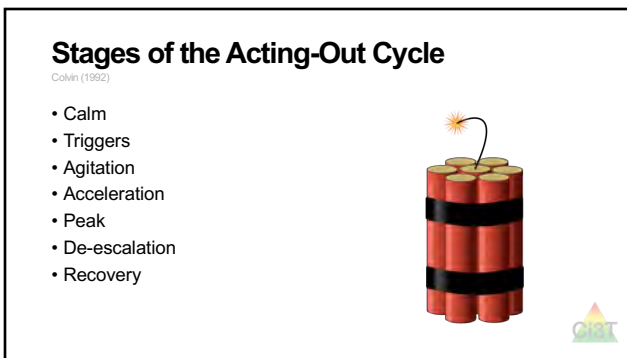

---

---

---

---

---

**Stages of the Acting-Out Cycle**

Colvin (1992)

- Calm
- Triggers
- Agitation
- Acceleration
- Peak
- De-escalation
- Recovery

A small illustration of a red and black striped dynamite stick with a lit fuse. A small logo is in the bottom right corner.

21

---

---

---

---

---

---

---

---

**What do you do well in Tier 1 efforts to prevent students from escalating behavior?**

Discuss – and make plans!  
With your table friends and colleagues

- Consider what supports are in place for academic, behavioral, and social domains.
- What low-intensity strategies are currently in place? (see ci3t.org/pl)

Ci3T 

**Managing Acting-Out Behavior**

Seven Phases

23

---

---

---

---

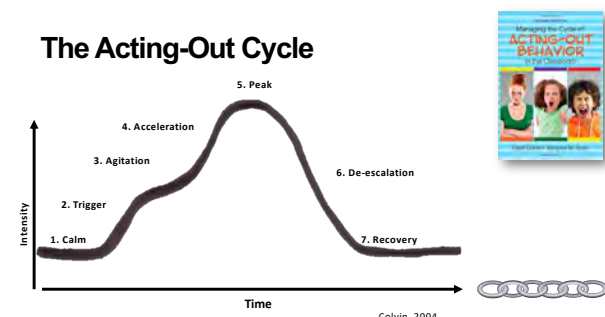

---

---

---

---

**The Acting-Out Cycle**

Colvin, 2004

[Overview of the Acting-Out Cycle--Vanderbilt IRIS Module](#)

24

---

---

---

---

---

---

---

---

**Calm**  
*Overall behavior is cooperative, compliant, and desirable*

- Academically engaged
- Follows rules & expectations
- Is responsive to praise
- Initiates interactions
- Goal-directed behaviors

**Strategies:**  
 Intervention is focused on proactive strategies. Focus on **instruction and positive behavior support**.

- Implement the schoolwide CIBT plan
- Vary instructional delivery
- Provide behavior-specific praise
- Implement low-intensity teacher-delivered strategies (e.g., precorrection, active supervision, opportunities to respond)
- Carefully plan instruction and implement clear routines and procedures
- Attend to the physical environment for potential problem areas

Calvin, G., & Scott, T. (2015). *Managing the cycle of acting-out behavior in the classroom* (2<sup>nd</sup> Edition). Thousand Oaks, CA: Corwin.

25

---

---

---

---

---

---

---

---

**Trigger**  
*Overall behaviors involve a series of unresolved problems*

**School-based triggers**

- Conflicts
- Changes in routine
- Peer provocations
- Pressure
- Ineffective problem solving
- Facing errors in instruction
- Facing correction procedures
- Denial of something needed

**Strategies:**  
 Intervention is focused on **prevention and redirection**.

- Identify the situation where the behavior is likely to occur.
- Use precorrection to teach appropriate response.
- Rehearse the expectations, prompt or remind students as needed, provide specific praise and reinforcement.
- Work with all staff and faculty to teach and reinforce social skills.
- Group social skills, anger management, community services.
- Work with families for outside supports of nonschool-based triggers

Calvin, G., & Scott, T. (2015). *Managing the cycle of acting-out behavior in the classroom* (2<sup>nd</sup> Edition). Thousand Oaks, CA: Corwin.

26

---

---

---

---

---

---

---

---

**Low-Intensity Strategies**

**Research-Based Strategies for Improving Outcomes for Behavior**

**Supporting Behavior for School Success**

**Managing Challenging Behaviors in Schools**

**The Behavior Checklist Program**

**Strategies:**

- Opportunities to Respond
- Behavior-Specific Praise
- Active Supervision
- Instructional Feedback
- High-p Requests
- Precorrection
- Incorporating Choice
- Proximity
- Overlappingness
- With-it-ness
- Pacing
- Self-Monitoring
- Behavior Contracts

27

---

---

---

---

---

---

---

---

## Agitation

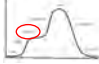

*Overall behavior is unfocused and off-task*

**Increases in behavior**

- Darting eyes
- Nonconversational language
- Busy hands
- Moving in and out of groups
- Off-task, then on-task behavior

**Strategies:**  
Intervention is focused on **reducing anxiety.**

- Show empathy
- Provide reasonable options and choices
- Allow wait time for student to decide (usually less than a minute)
- During wait time, walk away from student, attend to other students, or engage in some other task
- Involve in successful engagement (behavior momentum)

Calvin, G., & Scott, T. (2015). *Managing the cycle of acting-out behavior in the classroom* (2<sup>nd</sup> Edition). Thousand Oaks, CA: Corwin.

28

---

---

---

---

---

---

---

---

## Acceleration

*Overall behavior is teacher-engaging*

- Questioning and arguing
- Noncompliance and defiance
- Off-task behavior
- Provocation of others
- Compliance with accompanying inappropriate behaviors
- Criterion problems (getting starting)
- Whining and crying
- Avoidance and escape
- Threats, intimidation
- Destruction of property
- Verbal abuse

**Strategies:**  
Intervention is focused on **safety.**

- Remove all triggering factors
- Avoid escalating prompts
- Maintain calmness, respect, and detachment
- Approach the student in a nonthreatening manner
- Utilize non-confrontational limit-setting procedures

Calvin, G., & Scott, T. (2015). *Managing the cycle of acting-out behavior in the classroom* (2<sup>nd</sup> Edition). Thousand Oaks, CA: Corwin.

30

---

---

---

---

---

---

---

---

## Peak

*Overall behavior is out of control*

- Serious destruction of property
- Assault
- Self-abuse
- Severe tantrums
- Hyperventilation
- Running away

**Strategies:**  
Focus on **safety only!**

- Remain calm
- Crisis management
- Behavioral Emergency – Room Clear
- Safety strategies: emergency safety intervention (ESI) if there is immediate danger (document & notify)
- Learn from it... (e.g., FBA, BIP, mental health assessment)

Calvin, G., & Scott, T. (2015). *Managing the cycle of acting-out behavior in the classroom* (2<sup>nd</sup> Edition). Thousand Oaks, CA: Corwin.

33

---

---

---

---

---

---

---

---

**De-Escalation**  
*Overall behavior displays confusion*

- Confusion
- Reconciliation
- Withdrawal
- Denial
- Blaming others
- Responsive to directions
- Responsive to manipulative or
- Avoidance of discussion
- Avoidance of debriefing

**Strategies:**  
 Intervention is focused on monitoring for re-escalation of behavior.

- Monitor for health/safety of all involved
- Avoid blaming- provide opportunity for non-judgmental discussion
- Allow cool-down time and space
- Engage in independent work- provide easy/concrete tasks

Calvin, G., & Scott, T. (2015). Managing the cycle of acting-out behavior in the classroom (2<sup>nd</sup> Edition). Thousand Oaks, CA: Corwin.

35

---

---

---

---

---

---

---

---

**Recovery**  
*Overall behavior shows eagerness for busy work and reluctance to interact or discuss*

- Eagerness for independent work or activity
- Subdued behavior in group work
- Subdued behavior in class discussions
- Defensive behavior
- Avoidance of debriefing

**Strategies:**  
 Intervention focuses on returning to normal activities.

- Follow through with consequences, but do not disrupt flow of instruction
- Positively reinforce any displays of appropriate behavior
- Debrief/rehearse problem solving routine

Calvin, G., & Scott, T. (2015). Managing the cycle of acting-out behavior in the classroom (2<sup>nd</sup> Edition). Thousand Oaks, CA: Corwin.

37

---

---

---

---

---

---

---

---

**Debriefing Session**

1. Facilitates transition back to task/activity ...not further negative consequence
2. Goal is to increase appropriate behavior
3. Focus on problem solving
4. Pinpoint events that contributed to the incident
5. Teach replacement behaviors
6. Debriefing activities and forms

GLEC

40

---

---

---

---

---

---

---

---

**Discuss**  
**...and make plans!**

With table friends and colleagues

- Which phases are you most knowledgeable?
- What strategies do you feel comfortable implementing?
- What professional learning avenues would be useful for building knowledge and confidence?

**00:00**

**Pathways to Success**  
 Understanding educator-student interactions

**DEFUSING DISRUPTIVE BEHAVIOR IN THE CLASSROOM**  
 GEOFF COLVIN  
 GEORGE COYAK

45

---

---

---

---

---

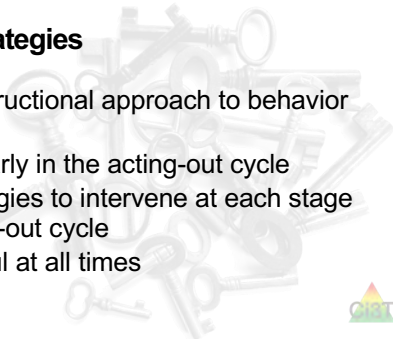

---

---

---

**Four Key Strategies**

1. Take an instructional approach to behavior schoolwide
2. Intervene early in the acting-out cycle
3. Learn strategies to intervene at each stage in the acting-out cycle
4. Be respectful at all times

46

---

---

---

---

---

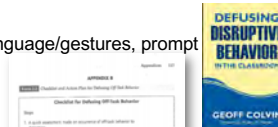

---

---

---

**Defusing Off-Task Behavior**

1. Assess the situation: determine “can’t do” or “won’t do”
  - Is it an emergency situation? If so, follow crisis procedures. If not, follow off-task defusing steps.
2. Maintain the flow of instruction
3. Recognize on-task students, making no response to off-task students
4. **Show empathy**
5. Redirect (focus on task, brief language/gestures, prompt procedures for asking for help)
6. Give time and space
7. Acknowledge compliance

47

---

---

---

---

---

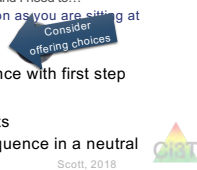

---

---

---

**Defusing Non-Compliance and Limit Testing**

- Provide one clear direction
  - “Alright everyone, return to your desks, get out your book and paper, and begin work.” Kāwika does not comply.
  - “Hey Kāwika, time to return to your desk.”
    - “But I can’t sit at my desk because I don’t have A, B, C and I need to...”
  - “I’d be happy to help you with all those things as soon as you are sitting at your desk.”
- Be neutral but direct and stay with the direction
- All student requests are contingent on compliance with first step
- Follow-up with student quietly
- Continue to acknowledge other on-task students
- Acknowledge cooperation or implement consequence in a neutral manner

48

---

---

---

---

---

---

---

---

### Defusing Disrespectful Behavior

- Indicate in a neutral manner the action was disrespectful and continue with instruction
  - "That's what we call disrespectful, let's talk about it later."
    - "I don't see how that was disrespectful"
  - "Which is why we should discuss it after everyone masters these 2-step equations by using..."
- Do not allow disrespectful behavior to escalate your emotions or interrupt the lesson
- Personal and genuine apologies are sometimes effective for peer disrespect (e.g., restorative practice)
- If student refuses to comply, follow through with bottom line consequence 

---

---

---

---

---

---

---

---

50

### Defusing Disruptive Behavior

- Recognize and respond quickly to student agitation
- Redirect
  - Clearly state the expected task first step: focus on behaviors taught
- Communicate concern privately
  - Present options – not an ultimatum
  - Allow student space and time – do not hover
  - Assist student to begin task: remind to use appropriate behavior
- Attend to other students and prepare for the worst
- Acknowledge compliance or institute standard consequence in neutral manner Scott, 2014 

---

---

---

---

---

---

---

---

52

### Defusing Provocative Behaviors

- Privately identify the behavior as a problem for the student, not you
  - "Hey, I personally don't mind that shirt, but it pretty clearly violates dress code expectations. Here are options for how to fix it, but it's up to you, you know the consequences."
    - "But my mom bought this for me!"
  - "All the more reason I'd hate for you to lose it, so which of those options..."
- Don't argue, don't show shock or offense – it's simply a violation of expectations and you are there to help
- Acknowledge cooperation
- If student refuses to comply with a solution, follow through with bottom line consequence 
  - Delivered in a matter-of-fact manner as a choice the student made

---

---

---

---

---

---

---

---

55

### Defusing Aggressive Behavior

- Recognize conditions under which conflict is likely and attempt to avoid by using
  - Assigned seats                      Space, options, preferred activities
  - Independent activities            Relaxation activities
  - Teacher proximity – stay between as long as there is no physicality
- Verbal altercation = verbal intervention
  - Provide specific and concrete directions
  - Redirect / distract – get attention away from altercation
  - Separate as much as possible without placing hands on students
- Physical altercation = initiate crisis procedures
  - Call office or send runner
  - Provide clear, loud, and concrete directions to both students
  - Clear other students away to keep safe
  - Wait for assistance

---

---

---

---

---

---

---

---

57

### Discuss ...and make plans!

With your table friends and colleagues

- What is your biggest "Aha!" moment or greatest take-away from the keys to addressing various types of behavior?

---

---

---

---

---

---

---

---

59

### Tier 3

Building a de-escalation plan

---

---

---

---

---

---

---

---

60

**Comprehensive, Integrated, Three-Tiered Model of Prevention**  
(Lane, Kalberg, & Menzies, 2009)

Support	Description	School-wide Data Entry Criteria	Data to Monitor Progress	Exit Criteria
<b>Functional Assessment-based Intervention</b>	A teacher assessment of student needs to determine if a student is at risk for or exhibits emotional and/or social behavior problems. Functional assessment involves gathering information from the student, teacher, parent, and other relevant personnel to determine the nature and extent of the problem. The teacher completes the Functional Assessment Form (FAF) and provides it to the school counselor. The school counselor reviews the FAF and provides feedback to the teacher. The teacher then implements the intervention plan.	Number of students identified as being at risk for or exhibiting emotional and/or social behavior problems. Number of students who have been referred to the school counselor for a functional assessment. Number of students who have been identified as having emotional and/or social behavior problems.	Number of students who have been identified as having emotional and/or social behavior problems. Number of students who have been referred to the school counselor for a functional assessment. Number of students who have been identified as having emotional and/or social behavior problems.	The behavior of students is consistent with the expected level of performance. The behavior of students is consistent with the expected level of performance. The behavior of students is consistent with the expected level of performance.
<b>Enhanced Response Strategies</b>	Enhanced response strategies are interventions that are designed to address the needs of students who are at risk for or exhibiting emotional and/or social behavior problems. These strategies are designed to be used in conjunction with the functional assessment and the intervention plan. Examples of enhanced response strategies include: individualized de-escalation support plans, social skills training, and self-management strategies.	Number of students who have been identified as having emotional and/or social behavior problems. Number of students who have been referred to the school counselor for a functional assessment. Number of students who have been identified as having emotional and/or social behavior problems.	Number of students who have been identified as having emotional and/or social behavior problems. Number of students who have been referred to the school counselor for a functional assessment. Number of students who have been identified as having emotional and/or social behavior problems.	The behavior of students is consistent with the expected level of performance. The behavior of students is consistent with the expected level of performance. The behavior of students is consistent with the expected level of performance.

---

---

---

---

---

---

---

---

**Tertiary (Tier 3) Intervention Grid: For Middle and High School Students**

Support	Description	School-wide Data Entry Criteria	Data to Monitor Progress	Exit Criteria
Individualized De-escalation Plan	Ongoing strategy involving identifying specific student characteristics for each phase of the De-escalation cycles and implementing appropriate and evidence-based adult responses to managing student acting out behavior.	One or more of the following: <b>Behavior:</b> <input type="checkbox"/> SRSS-E7: High (9-21) <input type="checkbox"/> Office discipline referrals (ODRs) 6 or more within a grading period	Identify a target behavior for the individual student. Include: (a) label for the behavior, (b) definition, (c) examples, and (d) non examples Set behavioral goal based on baseline performance of the behavior. Direct observation of the target behavior with data points graphed for decision making.  <b>Treatment Integrity:</b> Treatment integrity checklist  <b>Social Validity:</b> Teacher: IRP-15 Student: CIRP	SRSS-E7 score: Low (0-3)  Observation data demonstrate behavior is consistently within expected level (per goal); three consecutive data points) – then transition to maintenance plan and monitor behavior during transition.

63

---

---

---

---

---

---

---

---

---

---

**Planning**

"It is much like a map to the behavior train the student takes us on."

"The teachers appreciated the strategies column the most."

"I enjoyed creating this plan by using the 'Acting Out Cycle' as it provides a clear and structured guide for any adult who may be implementing this with a student."

"I am more likely to implement this type of de-escalation plan compared to others because it was so easy to follow."

"I feel I have added another tool to my kit!"

"It is an 'active' plan!"

See [ci3t.org/pl](http://ci3t.org/pl) for "Individualized De-escalation Support Plan"
